

# Aged Care Facility Counselling Service

## **Affordable Mental Health Service:**

Moore Mindful Services is committed to offering professional, caring and person centered therapeutic support to all our clients. We offer an affordable and supportive in house mental health support service to Aged Care Facilities around Adelaide. We can supply services with a professional counsellor and psychotherapist who will visit the facility weekly or fortnightly, and offer professional and caring therapeutic support to residents. This allows your residents to build a trusting and supportive relationship with a new face and also allows them to have the opportunity to have therapeutic support if needed. All therapists have full clearances.

As part of this service, families of residents are also offered a discount rate on our professional online counselling that can be done at their convenience.

### **Rates:**

Our normal hourly in house rate for therapists is \$160 however we offer a discount on this for Aged Care Facilities. The discounted service rates include:

- **\$95 Per Hour with a minimum two hour call out per facility. (In house service.)**
- **\$90 Per Session for family members of residents for online sessions.**

*(Family members can contact us directly and mention your facility's name for the discount.)*
